- Link Github : https://github.com/Yusuf-Rizqy-M/laravel_mas_yusuf

Final Project UKS 2025 | Web App Competition

Maret 2025-Agustus 2025

- Developed a health queue management system for schools using Laravel 11 RESTful API.
- Designed and managed the MySQL database structure including user roles, queue history, and health reports.
- Built responsive and user-friendly UI with React.js and Tailwind CSS, improving accessibility for students and admins.
- Integrated role-based authentication and dynamic dashboard features.
- Implemented real-time features such as queue tracking and user notifications (planned).
- Collaborated with a 3-member team using GitHub for version control and agile development.
- Managed tasks, deadlines, and progress tracking using **ClickUp** for efficient project management.
- Link API : <http://api-uks.rplrus.com>
- Link Website : <https://uks.rplrus.com> (progress 70%)

- Link Github Backend : <https://github.com/Yusuf-Rizqy-M/Backend-Unit-Kesehatan-Sekolah>

Bank Jateng Syariah | Web App Competition

Juni 2025

- Developed a web-based e-Branch system for Bank Jateng Syariah using Laravel 12 focused on three core services: Deposits, Savings, and Financing.
- Designed intuitive and user-friendly UI prototypes using Figma, aligned with Sharia banking principles.
- Developed backend logic for account registration, transaction handling, and financing application flow.
- Ensured role-based access and secure authentication for customers and admin staff.
- Collaborated effectively in a 3-member team using GitHub for version control and task management.
- Link Website : <https://bankjateng.rplrus.com>
- Link Github : https://github.com/andhikaeka3333333/bank_jateng

Education

SMK Raden Umar Said

2023-2026

Major: Software and Game Development | Vocational School

- **November 2023** | Completed education website for final assessment of web programming subjects.
- **December 2023** | Finished live coding with Java programming language for final assessment of mobile programming subjects
- **December 2023** | Developed Calculator Application for final assessment of desktop programming subjects
- **December 2023** | Collaborated in P5 activity to develop a desktop application for food ordering.
- **December 2023** | Collaborated in P5 activity to develop a desktop application for food ordering.
- **Januari 2024** | Learn Flutter for first time
- **Januari 2024** | Learn React for first time
- **Januari 2024** | Learn Figma for first time
- **Januari 2024** | Learn Server management Studio for first time
- **Januari 2024** | Learn Unity for first time
- **April 2024** | Finished live coding with Flutter programming framework for final assessment of mobile programming subjects
- **April 2024** | Finished live coding with React programming framework for final assessment of website programming subjects
- **April 2024** | Finished live coding with SSMS programming for final assessment of mobile programming subjects
- **July 2024** | Learn Arduino, LM35, Ultrasonic for first time
- **July 2024** | Learn Laravel for first time
- **July 2024** | Learn Sql for first time
- **July 2024** | Learn Getx state management for first time
- **November 2024** | Participated Techcomfest Competition
- **November 2024** | Finished live coding with Flutter programming framework for final assessment of mobile programming subjects
- **November 2024** | Finished live coding with Laravel programming framework for final assessment of website programming subjects
- **November 2024** | Finished live coding with Arduino programming for final assessment of desktop programming subjects
- **November 2024** | Finished coding with Unity programming for final assessment of game programming subjects
- **Januari 2025** | Learn Laravel API
- **Januari 2025** | Learn Clickup Project Management
- **Januari 2025** | Learn Github
- **Maret - Agustus 2025** | Final Project UKS 2025
- **Juni 2025** | Participated Bank Jateng Syariah Competition

SMP 1 Kudus

2020-2023

Junior High School

- **Januari 2024 – Februari 2023** | Learned Blogger
- **March 2023-April 2023** | Learned Scratch for introduction to coding.

SD 1 Barongan

2014-2020

Elementary School

Certifications

- Participated Certification Liga Digital Nasional by Skilvul Indonesia.
- Learn Basic Website Programming by Dicoding Indonesia.
- Learn Basic Java Script Programming by Dicoding Indonesia.
- Learn Front End for beginners by Dicoding Indonesia.
- Learn Basic Flutter for beginners by Dicoding Indonesia.
- Learn Basic AI
- Participated Certification Techcomfest Competition by Politeknik Negeri Semarang.
- Learn Speaking Partner Basic - 1
